Check with the Village BEFORE starting your project

Building Permit Requirements:

- Completed Building Application
- Two (2) sets of building plans; stamped (*ELECTRONIC COPIES PREFERRED*)
- Two (2) signed and sealed copies of the site plans - 11x17, drawn to scale and including **ALL** information as required by the "Engineering Site Plan Checklist" (*ELECTRONIC COPIES PREFERRED*)
- Completed Engineering Site Plan Checklist (when required)
- Receipt of application or permit from the Kane County Health Department for well and septic (when required)
- Design Review approval (when required)
- Access approval from KDOT or IDOT (when required)
- Elburn & Countryside FPD approval (Commercial/Industrial)
- Culvert Application (when required)
- Road Bond of \$10,000 (when required)
- Deposit: \$1000 (new construction) \$500 (secondary structure)
- Permit valid for 1 year; renewal is 100% of the *original permit fee*

Construction Requirements:

- Culvert and Erosion Control measures will be installed PRIOR to construction activity and MAINTAINED throughout the project.
- Construction hours:
 - 7am to 8pm Mon – Fri
 - 8am to 8pm Sat – Sun
- Vehicle weight restrictions are posted and enforced
- Construction site will be maintained in a safe condition
- Debris will be contained or removed from the site immediately
- NO BURNING OF CONSTRUCTION DEBRIS IS ALLOWED AT ANY TIME
- Stockpiled materials will be stacked properly and safely, or fenced
- No construction materials will be permitted in streets or public right-of-ways
- No assembly of materials will be permitted on streets or right-of-ways
- A toilet must be available to all workers from the first day of construction

Failure to comply with construction requirements will result in a STOP WORK ORDER

Inspection Requirements:

- Inspections are required for all work as marked on the Building Permit. If in doubt, the rule is that NO work shall be covered until it has been inspected and approved.
- Inspections require 24-hour notice
- Inspections should be ordered by Village street address, permit number and approximate time
- NO INSPECTIONS WILL BE MADE UNLESS:
- A culver has been properly installed with crushed road gravel to street
- The street address (5" letters - numbers min) and permit are posted. Must be visible from the street and maintained throughout construction
- Safe access is provided for all inspections
- *Building and site plans are accessible for all inspections*

Completion and Occupancy:

- All work must be completed and pass final inspections before a final occupancy is issued
- Approval of finished grade and elevation by the Village Engineer is required
- No furniture or personal belongings are allowed to be in the building until a final C/O is issued
